Philosophical transactions. v. 1-177, 1665-66-1886; series A. Mathematical and physical sciences, v. 178-1857; series B. Biological sciences, v. 178-1857.
London.

v. illus. (part col.) maps, facsimiles. 23 cm.
Frequency varies.
Some of the volumes were issued with new title pages and minor changes in text and type; thus the title pages of v. 12 and 13, which in some copies are incorrectly numbered, are corrected in other copies. In the Library of Congress set the volumes are apparently of the earliest (unrevised) issue.
Issues for 1702-1852 have no col. numbering but constitute v. 52-112.
Series title varies: 1806-1934 (v. 187-231) Series A. Containing papers of a mathematical character; 1906-1934 (v. 187-231) Series B. Containing papers of a biological character. Vols. 178-180 (1887-191) issued without series title.
Editors: 1665-1677 (nos. 1-139) H. Oldenburg; Jan. 1678-Feb. 1679 (nos. 137-142) N. Grewe; 1688-89 (nos. 143-160) R. Plot; 1685 (no. 167) W. Mungret; 1690-91 (nos. 170-171) E. Halley; 1694-94 (nos. 212-214) R. Waller; 1695-1713 (nos. 215-337) Sir H. Sloane; 1714-19 (nos. 338-381) K. Halley; 1720-27 (nos. 382-407) J. Jurin; 1727-28 (nos. 408-409) W. Rutt; 1729-30 (nos. 407-407) C. Mortimer. The foregoing numbers, which form v. 1-48 of the collection, were published by the respective secretaries without the supervision of the society; since v. 47, 1753-52, the transactions have been published under the superintendence of a committee of the society.
Vols. 13-15 published at Oxford (one of the issues of v. 12 has imprints Oxford, 1679).
There was an interruption in the transactions between v. 12 and v. 13, and for this period Dr. Robert Hooke published seven numbers of "Philosophical collections," 1679-1682 (wanting in Library of Congress).
Additional papers were published in "The history of the Royal Society of London ... in which the most considerable of those papers communicated to the society, which have hitherto not been published, are inserted in their proper order, as a supplement to the Philosophical transactions. By Thomas Birch, 1766-67."
"Meteorological journal ... kept at the Royal Society's house: in order of the president and council, for the years 1741-1781, 1782-1845, is included in v. 65-72, 78-135, 1773-1845; discontinued after the establishment at the Royal Observatory at Greenwich of a Magnetical and Meteorological Observatory.
The Cronian lectures on muscular motion read before the Royal Society, the first of which was delivered in 1788, were published as separately pagged supplements for the years 1788 (supplement to v. 40); 1784-85 (supplement to v. 40); 1786 (supplement to v. 44, pt. 1); 1747 (supplement to v. 44, pt. 3). Subsequent lectures published in the volumes of transactions are without separate paging. (The supplement to v. 40 is wanting in Library of Congress).

Russia (1923-1924). U. S. S. R.) Vsesoiuznyi komitet standartizatsii.

Общесоюзный стандарт. OCT. From 1923 to 1924 all standards with the above title carried consecutive numbers assigned by Vsesoiuznyi komitet standartizatsii. In addition, many standards carried a second number assigned by the people's commissariat or other agency using the standard; this additional numbering being preceded by the initials of the agency and being assigned in a separate series for each agency.

In 1925, the Vsesoiuznyi komitet standartizatsii was abolished. New standards were issued by the agencies using them, and were numbered by the agencies in the same series of numbers as were used by them previous to 1925. Such numbers are preceded by the initials OCT and the initials of the agency.

These agencies about 1929 began to use numbers assigned in blocks to each agency in one overall series for all agencies; these numbers continuing the numbering used by the Vsesoiuznyi komitet standartizatsii to 1925.

In 1940, issuance of new Общесоюзные стандарты was suspended, and new standards were issued instead by the newly organized Vsesoiuznyi komitet standartov under the title: Государственный общесоюзный стандарт. ГОСТ. These standards have their own numbering, beginning with no. 1.

In the Library of Congress, standards are arranged as follows:

From 1926 to 1928, by the number assigned by Vsesoiuznyi komitet standartizatsii.

From 1929 (generally) to 1940, by the overall series numbers mentioned above.

For the intermediate period, when each agency issued its own standards with its own numbering (preceded, however, by the abbreviation OCT) they are arranged in subseries with the following arbitrarily assigned letters preceding the numbers:

A. Narodnyi komissariat legkoi promyshlennosti.

B. Narodnyi komissariat tekhnicheskoi promyshlennosti.

C. Narodnyi komissariat tisheloi promyshlennosti.

D. Narodnyi komissariat transporta.

In addition to the Общесоюзные стандарты, various agencies issued standards which were not confirmed by Vsesoiuznyi komitet standartizatsii. These may be recognized by their not having the letters OCT.

Standards subsequently retained without change or with minor changes continue to use the number originally assigned. Major revision sometimes result in having a completely new number assigned, or due to the addition of the number of the last two digits of the year of revision, such as OCT НКМ 1250-30.
